

# Get DRAGON CONNECTED!

**H**ere's a way to help NISD students get connected.

Display this logo on your door or window to let NISD families know they can use Wi-Fi to submit and download lesson plans.

NISD will then promote your business location in communications with students, parents, staff and stakeholders.

COVID-19 has changed how we function. It's also spotlighting the uneven access to internet for students, many who live in rural parts of the county where high speed connections simply don't exist.

Help today and join the network of Dragon Connected!
